PROFESSIONAL SUMMARY

IT graduate (BSc. and Diploma in Information Technology, GCTU) with solid hands-on practical grounding in systems administration, networking, and enterprise IT support operations. Experienced in frontline technical support at National Investment Bank (NIB), diagnosing workstation hardware, operating systems, and LAN issues. Proactive learner building virtualized homelabs with Active Directory and Linux.

CORE TECHNICAL SKILLS

Systems Administration:	Active Directory Domain Services (AD DS), Windows Server 2022, User Management & OUs, Linux (Ubuntu)
IT Support & Hardware:	Workstation Diagnostics, Peripheral Maintenance, OS Deployment (Windows 10/11), Hardware Troubleshooting
Networking & Connectivity:	LAN / TCP/IP Fundamentals, Ethernet Cabling & Keystones, VLANs, Routers & Switches, DNS / DHCP Configuration
Productivity & Lab Tools:	Microsoft 365 Suite, PowerShell Scripting, Cisco Packet Tracer, VirtualBox Virtualized Environments

PROFESSIONAL EXPERIENCE & PRACTICAL MILESTONES

National Investment Bank (NIB) - IT Support Intern — Accra, Ghana

- > Delivered frontline desktop, software, and peripheral support to branch staff under strict banking compliance and uptime standards, maintaining accuracy, professionalism, and confidentiality.
- > Diagnosed and resolved workstation operating system crashes, driver conflicts, hardware faults, and network printing issues.
- > Configured and set up end-user devices and peripherals for staff and field operations.
- > Provided on-site field support during off-site cash collection activities, keeping IT equipment operational to support business continuity.
- > Resolved peripheral connectivity issues through physical troubleshooting, device verification, and test confirmation.
- > Ensured reliable network connectivity by inspecting cabling and performing basic troubleshooting, including Layer-1 verification, RJ-45 cable testing, patch panel routing, and LAN drop termination.
- > Documented recurring technical incidents and maintained hardware asset logs adhering to bank standard operating procedures.

Systems Administration & Independent Lab Projects - Ongoing Technical Practice — Accra, Ghana

- > Architected virtualized Windows Server 2022 environment: created domain controllers, organizational units, and group policies (GPOs).
- > Built automated health monitoring and backup scripts in PowerShell and Bash checking storage thresholds and service states.
- > Designed multi-VLAN branch network topology with Router-on-a-Stick inter-VLAN routing and ACLs in Cisco Packet Tracer.

EDUCATION & CREDENTIALS

Bachelor of Science (BSc.) in Information Technology — Ghana Communication Technology University (GCTU)
Focus: Network Engineering, Operating Systems, Database Systems, Enterprise IT Management

Diploma in Information Technology — Ghana Communication Technology University (GCTU)
Focus: Hardware Maintenance, Computer Networking Fundamentals, System Troubleshooting

Operating Systems Basics (Certificate) — Cisco Networking Academy
Certificate of completion - Completed 31 Jul 2026

KEY PROFESSIONAL STRENGTHS

Methodical Troubleshooting | Clear & Patient Communication | Calm Under Operational Pressure | Fast Adaptability
